Mr. Stephen E. Juhasz  
Department of Bacteriology  
McGill University  
Montreal, Canada

Dear Mr. Juhasz:

I am sorry that your letter of December 1, was misdirected and only recently came to my attention.

I would be happy to consider the possibility of a postdoctoral fellowship for you, although I have to warn you in advance that we are very limited with respect to facilities and accommodations. Meanwhile if we could have the favor of a letter or two from your professors in your department, it would help us to evaluate your application. I am glad to hear that you have been able to reaccomodate yourself to academic life in Canada and to obtain Canadian citizenship.

Yours sincerely,

Joshua Lederberg  
Professor of Genetics

JUHASZ
